

CORONAVIRUS PREPARATION

We want to help you prepare and look after your health.

1. **DOWNLOAD** the eRx Express app from the Apple app store or the Google Play Store 📱
Select **GREG KEILY CHEMIST** as your preferred pharmacy
2. 🚫 **DONT ENTER THE PHARMACY IF UNWELL** 🚫 (CALL AHEAD (07) 55 55 7877)
3. **HAVE 2 WEEKS WORTH OF MEDICATION** 💊
4. **EFPTOS IS THE PREFERRED PAYMENT** 💳
5. **GET YOUR FLU SHOT NOW** 📄
6. **LISTEN TO QUARANTINE ADVICE** 😊
7. **STOCKTAKE YOUR MEDICINE CABINET** 📦 and top up if required

As the Coronavirus pandemic begins to escalate in Australia we want to ensure that you are well educated and ready for what may come in the next few months.

1. SCRIPTS ON FILE

We encourage all of our patients to leave their scripts on file.

You can order all your medications, front of shop items (paracetamol, ibuprofen, toilet paper 🧻) in advance.

Phone 07 55557877 or e-mail info@gregkeilychemist.com.au to place a medication order. Payment can be arranged over the phone by credit card. Your medication will be bagged and ready for collection, to minimise the time spent in the store.

Prescriptions not kept on file can be ordered through the eRx Express app. We will need the original script in order to supply the prescription medications at the point of collection / delivery. Consider leaving your prescriptions with us at this stage, in order to streamline your prescription medication management and reduce waiting times.

Delivery of medications to your home can be arranged if you are unwell.

3. IF YOU THINK YOU HAVE CORONAVIRUS OR THE INFLUENZA DO NOT ENTER THE PHARMACY. 🚫

We deliver daily and are happy to deliver any items to you at home. Please call 07 55557877 to arrange delivery of medications.

4. Please ensure that if you are taking regular medications you have **2 WEEKS WORTH OF MEDICATION** at home at all times. This is to make sure that if you are quarantined you will not run out of supply and possible stock shortages (**please don't hoard**).

5. CASH FREE SALES

To reduce the spread of any virus, go cash free, tap and go. We understand that this is not an option for everyone, but reducing our cash handling will stop the spread. It is much easier to disinfect an eftpos terminal than a \$20 note.

6. FLU SHOTS!

The Australian Government Department of Health has recommended that immediate administration of the 2020 influenza vaccination. We anticipate stock in store in the near future. Our pharmacists are available to vaccinate patients aged 10 years and older. Getting your flu shot will help to reduce the risk of co-infection, and is recommended for the whole family.

7. QUARANTINE

If you are advised to stay at home, please heed the advice of your health professional. Quarantine means, no quick trip to Coles or ducking into the pharmacy for 5 minutes. We are able to advise you over the phone and deliver goods to your car or your house. Please help limit the spread of this virus in our community and avoid infecting at risk people.

8. MEDICINE CABINET

Please ensure your medicine cabinet is up to date and fully stocked. Paracetamol, ibuprofen, hand sanitiser, tissues, immune boosters will all be in high demand. Please make sure you are prepared.

 - **PLEASE BE PATIENT** - 

We will be experiencing busy times ahead, please give us time to prepare your regular medications so we can assist sick people promptly.

At the end of the day, the large majority of people who contract COVID-19 will recover fully. It is our at risk patients; the very young, the elderly and our patients with chronic diseases, who will be at risk of complications. Please help us to protect our community by using your common sense, being vigilant and calling for advice if you need.

We are proud to contribute to keeping you healthy and well.

The Greg Keily Chemist Team
